SUMMARY

I am a full-stack web developer who has been working on websites for more than 4 years. Currently, I finished my degree at SLIIT and expecting the graduation soon. I have experience in technologies such as React, NodeJS, NextJS, MongoDB, Flask, Python, and many more. I always try to learn new technologies and transform my new thoughts into code when I have free time. You can get a better idea of me by exploring the portfolio website and LinkedIn profile.

WORK EXPERIENCE

Intern Software Engineer at Intrada Technologies   Jan 2023 - Jun 2023
- Completed my internship at Intrada Technology as an intern software engineer.
- Contributed to developing many web applications like HRM systems, CRM systems.

Freelance at Fiverr   Dec 2021 - Feb 2024
- Designed and Developed Websites and Web applications on Fiverr.
- Team up with several friends to complete the projects.

EDUCATION

BSc(Hons) in Information Technology - SLIIT   Jun 2021 - June 2025
- Specialized in Information Technology at Sri Lanka Institute of Information Technology (SLIIT)
- Currently expecting the graduation at SLIIT.

PROJECTS

CRM (Customer Relationship Management) system
- Created a CRM web application with ReactJS and NodeJS to manage Customers, Stocks etc. | GitHub

Image Background Remover Tool (Single and Bulk)
- Developed an Image background remover tool with Flask, ReactJS, and Rembg library for getting extra help for Fiverr projects when developing web solutions. | GitHub

Facebook Posts Generating tool (Single purpose)
- Developed a Facebook posts generator tool for a friend who owns a page that posts motivational quotes. In this tool, he can paste the quote and generate the post without thinking about the design. | GitHub

Emotion Recognition CNN model
- As part of my university's final-year research project, I fine-tuned an EfficientNet_b2 model for emotion classification. This model achieved 86 % test accuracy. | GitHub

Personal Portfolio Web Application
- Developed a personal Portfolio Web App with NextJS to showcase my projects and experiments. **There are 20+ projects showcased in the portfolio website. Feel free to explore them.** | GitHub | Live Website

SKILLS

React	python (Learning)	GitHub	Postman
NextJS (Learning)	HTML/CSS/JS	Git	ElectronJS
NodeJS	PHP	Figma	Typescript (Learning)
ExpressJS	Flask (Learning)	Photoshop	DeepLearning (Learning)
MongoDB	MySQL
